DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Blouin et al. (2003/0051897).

Blouin et al. (Figure 5) discloses a coaxial cable comprising: a dielectric layer (302) formed around a center conductor (301); an outer conductor layer (304) formed around the dielectric layer; and a sheath (305) formed around the outer conductor layer, characterized in that a metal foil for providing enhanced shield effect and shape maintainability is formed between said dielectric layer and said outer conductor layer. Blouin et al. also discloses that said metal foil has a thickness of 1% to 5 % of the outer diameter of said dielectric layer ([0009], [0022] and [0028], 0.002 inches = 3% of 0.077 inches), said metal foil is longitudinally arranged around said dielectric layer between said dielectric layer and said outer conductor layer, and said outer conductor layer is braided.
